"THE GRAVIFILL TABLE"

Effortless, Accurate Filling for Small Batch Operations

The **Gravifill Table** is a compact yet powerful **semi-automatic filling station** designed for fast, precise filling of small liquid batches. This mobile solution combines simplicity and smart technology to optimize your workflow — all while maintaining the high-quality standards Gravifill is known for.

"ENGINEERED WITH YOUR NEEDS IN MIND"

➡ "COMPLETE WORKSPACE"

- Integrated precision scale with real-time weight feedback
- Ample workspace for pre- and post handling
- Fixed height ergonomic working table

➡ "OPTIMIZED FOR SMALL BATCH PRODUCTION"

Supports rapid setup, fill, and cleanup cycles — ideal for operations with frequent changeovers or limited throughput needs

“EFFORTLESS SET-UP, TOP-NOTCH ACCURACY”

➤ “STAINLESS STEEL FRAME”

- Hygienic
- Corrosion-resistant
- Long-term use

➤ “HIGH SPEED, HIGH PRECISION”

- Reaching filling speeds of up to **5 liters/seconds**, with unparalleled accuracy at **0,5%**
- Dosing capacity of up to **6 kilograms**

➤ “VERSATILITY IS KEY”

- Wide range of liquid and viscous products
- Reduces manual handling
